

Mathematical Association of America Presents

## Problems from Murray Klamkin: The Canadian Collection

*Andy Liu & Bruce Shawyer, Editors*

Murray Klamkin was a dedicated problem solver and problem proposer, who left indelible marks on the problemist community. After working in industry and academe in the United States, he spent the last thirty of his eighty four years in Canada. He was famous for his Quickies, problems that have quick and neat solutions. In this book you will find all of the problems that he proposed for **CRUX with MAYHEM**, including all of his Quickies. His problems covered a very wide range of topics, and show a great deal of insight into what is possible in these areas. The problems are arranged into sets according to topic, and the lightly edited solutions are as published in **CRUX with MAYHEM**.

Problems from Murray Klamkin: The Canadian Collection is published by the Mathematical Association of America (MAA) in collaboration with the Canadian Mathematical Society (CMS). It is the first volume in the Canadian Collection.
